## A Student Guide to Field Study

The Field Study Program was developed as a School of Social Ecology undergraduate degree requirement to immerse students in rigorous, innovative, and engaged learning both in the classroom and through active participation in our community.

---

### ABOUT FIELD STUDY

To complete their School of Social Ecology Field Study requirement, students enroll in a field study course while completing 80 hours of fieldwork throughout the quarter at an approved field placement site.

In the classroom, students engage with faculty and one another through lectures, discussions, writing, and presentations, synthesizing their fieldwork with theory, paradigms, and ideas learned about in their coursework.

With faculty guidance, students explore and develop professional competencies that complement their fieldwork experiences and prepare students for future graduate school and career goals.

During field placement, supervisors provide guidance and mentorship to foster students' professionalization and community engagement, while students thoughtfully contribute to the organizations' programming and help support the communities they serve.

Students have the opportunity to explore a career field, observe and participate in organizational operations, and develop their interpersonal and technical competencies in a supportive, professional learning environment.

**About the Organization:**

Creative Behavior Interventions knows that for a child to BECOME all they can be, they have to be surrounded by those that BELIEVE whole-heartedly in them. To BEGIN a season of new success for a child takes knowledgeable people with hope in their hearts.

Join a team that provides one-on-one, in-home ABA therapy for children with Autism Spectrum Disorder and/or related developmental delays in the areas of Speech, Communication, Language, Social Interaction, Play, Motor Skills, Academic Skills, or with Behavioral Deficits & Behavioral Excesses, under the supervision of a BCBA.

We are looking for motivated, energetic, creative, and compassionate individuals who love to work with children. We provide all the training you need.

**Placement Job Description:** At CBI, students will have the opportunity to utilize Applied Behavior Analysis (ABA) principles while on the field. Under the direct supervision of a Clinical Behavioral Therapist, students will be taught and required to use the following methods in order to reduce problem behaviors amongst children: Verbal Behavior Method, Discrete Trial Teaching, Natural Environment Teaching, etc. Methods used will vary and be determined on a case-by-case basis. Students will be required to track progress and behaviors using specified data collection methods. Students will also learn and be required to complete the following throughout their externship: take session notes, graph data, maintain a logbook, and utilize stimuli materials for programming.

**Requirements (subject to change):**

- College coursework in psychology, education, social work, behavioral sciences, human development, and/or related fields.
- Must pass all necessary background checks as required by CBI's company policies and procedures.

**COVID-19 Protocols:** Mask required
